Ans: Sufficiently, societies

Q29. Among the given choices find the grammatically correct statement and mark the corresponding number as the answer.

Ans: She thus drew a line between 'political and economic' freedom – the kinds of freedom that democratic nations traditionally seek to uphold – from 'freedom of mind'. For Stebbing, freeing one's own mind is, uniquely, one's own personal responsibility, and is, she explains, hindered by ignorance. People might appear to be free, because they live in a liberal democracy, but this apparent freedom can be illusory.

Q30. Among the given choices find the grammatically correct statement and mark the corresponding number as the answer.

Ans: Too much is always harmful. Parents may expect a lot of things from their children. They even bundle them extra responsibilities, which might feel heavy for them. Some parents ask the elder child to take responsibility for their younger siblings. It is not always possible with everyone.

Q31. Among the given choices find the grammatically correct statement and mark the corresponding number as the answer.

Ans: NASA assured the public that its 'unparalleled' and 'exhaustive' preparations had left nothing to chance. Nothing could be further from the truth. In fact, every part of its quarantine procedure suffered disastrous breaches that would surely have exposed Earth to lunar microbes – had they existed. The microscopic universe, it turned out, was simply impossible to control.

Q32. Among the given choices find the grammatically correct statement and mark the corresponding number as the answer.

Ans: NASA assured the public that its 'unparalleled' and 'exhaustive' preparations had left nothing to chance. Nothing could be further from the truth. In fact, every part of its quarantine procedure suffered disastrous breaches that would surely have exposed Earth to lunar microbes – had they existed. The microscopic universe, it turned out, was simply

impossible to control.
